
HEAVY DUTY SWIVEL MOUNT

The **HDSM** is a universal swivel bracket that can be used as a mounting bracket where the need exists for some amount of articulation is desired. It can provide downtilt and side to side articulation when mounted on a mast.

It is supplied standard with a stainless steel V bolt for downtilt applications.

For side to side capabilities and or to mount on a 1 ½" diameter mast 2 optional stainless steel V bolts are recommended.

For direct mounting to a flat surface such as a cabinet or wall standard hardware (not supplied) can be used.

HDSM3 HDSM Supplied with 3 V Bolts.

2VB Optional stainless steel Vbolts for mast mounting:
supplied with 4 nuts and 4 washers.
